PARTS LIST

Seat back bungee

2 Hooks

INSTALLATION

NOTE: The seat back bungee can only be installed on the front and the rear seats on the left (driver’s) side of the vehicle.

1. Route the seat back elastic cord through the seat back loops. You can also start at the bottom and end at the top.

   Driver’s Seat/Left Rear Seat:

   - Push.
   - HOOK
   - Adjust the cord length.

2. Install the hooks and adjust the cord length while pressing the top of the hook. Release the top to secure the cord.
